## 26/06 Sharing session

Complications during the implementation of the best treatment plan – what could be worse? We invite you to share your situations when something went wrong. A little nightmare you managed to solve.

In this session, clinicians are invited to share their clinical cases exposing complications and how they solved them. Three moderators (jury) will moderate the session, and the best presentation will receive the prize from the jury. Another presentation will be awarded based on the votes of the auditorium.

**Format:**

20 mins case presentation and 10 mins for Q&A and discussion

## 26/06 Research forum
